***Allowable Subject Matter***

1. Claims 1-51 are allowed.
2. After further consideration, the title is considered of sufficient descriptiveness. The objection is withdrawn.
3. The following is an examiner's statement of reasons for allowance: the examiner agrees with the applicant in regards to the novelty and non-obviousness of the currently amended claims.
4. The invention is drawn to a service manager system for handling at least two services, wherein the first service comprises a different application set than the second service. For proper motivation, at least one piece of art must show the handling of multiple services of different classes.
5. Within the aforementioned environment, the method of inviting users, as claimed, such that a recipient of an invitation may access that service class and only the service classes to which he was invited, is a novel and non-obvious combination of features. Therefore, the claims are allowed for the reasons above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. They regard further teachings on multiple classes and services.
